BULLS USED AS YEARLINGS

These lots were used in the Sandon and Glenoch herds in a very tough summer. After joining they did come in light in condition and then went onto the same feed preparation as the rest of the bulls.

Lots: 10 15 16 72 73 74 75 77 78 80 81 85 86

They were the group leaders at 15 months, went out to do a man's job as boys and had some real life experience.

JK BULLS (GREEN TAGS)

The Glenoch-JK bulls have had a different preparation, being grown out on the Condamine and Dulacca properties that Justin and Kate operate.
